**Proposed Speed Limit Reduction – Pown Street, Sheen & A523, Rushton Spencer**

Dear Sir or Madam,

As part of its ongoing review of safety of the highway network, Staffordshire County Council are proposing to provide road safety improvements along Pown Street through Sheen & on the A523 through Rushton Spencer.

These improvements are proposed following successful speed reduction measures in other villages throughout the County.

The proposals comprise of:

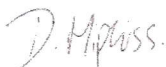

- Reducing the current speed limit from 40mph to 30mph on Pown Street through Sheen.
- Reducing the current speed limit from 40mph to 30mph on the A523 through Rushton Spencer
- Creating a 40mph buffer zone to help merge from national to 30mph.

The anticipated start date for the scheme will be late autumn 2019 and works will approximately last 2-3 days. This will follow the required Traffic Regulation Order (TRO) process.

Please see the attached drawings (CDT6628-1873-001 – P0 and CDT6628-1873-002 – P0) for details of the scheme.

If you have any comments you would like to make regarding the proposals for this scheme, then please forward them to the address above or by email.

Yours faithfully,

Devan Hipkiss  
Apprentice Engineer
